

- **Task: Write professional emails based on any 5 of the following scenarios. Ensure clarity, conciseness, and a formal tone.**

1. Thank You Email

Subject: Thank You for Your Support

Dear Rathod Jaypalsinh,

I hope this email finds you well. I wanted to sincerely thank you for your invaluable assistance with ATM machine project. Your expertise in specific area, debugging, algorithm optimization. was instrumental in helping me overcome python project .

Your guidance not only helped me resolve the issue but also deepened my understanding of specific concept or tool, Pandas, Flask. I truly appreciate the time and effort you took to support me.

If there's ever an opportunity for me to return the favor or collaborate in the future, please don't hesitate to reach out. Thanks again for your generosity and patience!

Best regards,

Dharmesh Kamaliya

2. Letter of Apology

Subject: My Sincere Apologies

Dear Rathod Jaypalsinh,

I hope this message finds you well. I am writing to sincerely apologize for the specific issue, e.g., delay in API deployment, bug in the production code, that occurred on 16/05/2025. As the Python backend developer responsible for this task, I take full ownership of this oversight and deeply regret any inconvenience it may have caused you or the team.

What Went Wrong:

- "An unhandled edge case in the Django middleware caused unexpected 500 errors".
- "This disrupted the service for X hours and affected Y users".

Steps Taken to Resolve:

1. Action taken: "Hotfixed the issue by patching the logic in views.py"
2. Preventative measure: "Added unit tests to cover similar edge cases"
3. Monitoring: "Configured Sentry alerts for similar exceptions"

Moving Forward:

I've reviewed our CI/CD pipeline to ensure such oversights are caught earlier in the future. I'm also documenting this case in our team's post-mortem log to share learnings.

Thank you for your patience and understanding. Please feel free to reach out if you'd like to discuss this further or need additional support to mitigate any lingering effects.

Best regards,

Dharmesh Kamaliya

4. Reminder Email

Subject: Friendly Reminder: Python Assignment Submission Due 16/05/2025

Hi Rathod Jaypalsinh,

I hope this email finds you well. This is a gentle reminder that your Python assignment on specific task, "Building a Flask REST API" or "Data Analysis with Pandas" is due on exact date/time, "Friday, 25th October, EOD".

Key Details:

- Task: [Briefly describe assignment, e.g., "Complete the inventory management module with Django ORM"]
- Submission Format: GitHub repo link, .py file, or Jupyter notebook
- Deliverables: Working code + README documentation

If you need any clarification or run into technical issues (dependency conflicts, testing errors), feel free to reach out—I'm happy to help troubleshoot.

Note: Late submissions may impact mention consequences, "project timelines" or "grading". Kindly confirm receipt of this reminder and share an ETA if you anticipate delays.

Best,

Dharmesh Kamaliya

Python Backend Developer

8. Email to Your Boss About a Problem (Requesting Help)

Subject: Need Help with Game Server Issue

Hi Bhavik Sir,

I'm stuck on a problem with our game backend and could use your advice.

Problem:

The Python game server is lagging when more than 50 players join.

What Happens:

- Players see delayed movements (500ms+ lag)
- Server CPU hits 100% during peak times
- About 20% of players get disconnected

What I Tried:

1. Optimized the player position updates
2. Added more cloud servers (helped a little)

Need Your Help With:

- Should we switch to a faster framework?
- Or rewrite critical parts in C++?
- Or something else?

I'm free to discuss today after 3 PM or anytime tomorrow.

Thanks,

Dharmesh

Game Backend Developer

9. Resignation Email

Subject: Resignation – Dharmesh Kamaliya

Dear Bhavik Sir,

I hope this email finds you well. I am writing to formally announce my resignation from my position as python backend developer at IBM (International Business Machines Corporation), effective Friday, May 10, 2025.

I am grateful for the opportunities and support I've received during my time here. It has been a pleasure working with you and the team, and I truly appreciate the experiences I've gained.

Please let me know how I can assist in ensuring a smooth transition. I'd be happy to help train a replacement or wrap up any pending tasks.

Thank you again for everything, and I hope to stay in touch.

Best regards,

Dharmesh Kamaliya
